PRODUCT OVERVIEW:

The Hypoxis Rooperi, or African Potatoe, as it is usually called, has been found to be genetically over 300,000 years old. Because it has not been genetically modified or engineered in this millenia, the nutrient values are as high as **50,000** times greater than in modern vegetables.

Once in the body, Hypoxoside separates into two molecules of Rooperol, which, amongst other intrinsic values, is a powerful antioxidant that detoxifies the body, resulting in better blood flow and more oxygen in the blood. More oxygen also means better healing. While Rooperol has been proven to be beneficial to the body in numerous ways by helping to prevent cellular damage caused by certain degenerative diseases, it has also been shown to have anti-inflammatory and anti-tumor effects. These effects have all been confirmed by research in Germany and in South Africa.

The Hypoxis Hemerocallidea (also known as Rooperi) has been clinically evaluated specifically to determine any toxic effects. Hypoxis Rooperi is not toxic, this was found to be the case even at doses 20 times higher than what was recommended. (Smit, BJ. Albrecht,CF. A Phase 1 trial of Hypoxoside as an oral prodrug for cancer therapy - - absence of toxicity; South African Medical Journal, 1995 Sep, 85:9, 865-70.)In addition to its immune building abilities, Hypo Plus Naturals™ has a very high kilojoules value (1564 kj/100g), which significantly boosts energy levels.Hypo Plus Naturals™ contains a well-balanced composition of essential and non-essential Amino Acids, which are the building blocks of the body. Many of these have to be obtained from the food that we eat normally.

Internationally accepted manufacturing and packaging practices are followed:

Hypo Plus Naturals™ has been screened and approved in South Africa according to MCC Regulations and our product is patented (PCT/ZA/L1/00200) and fully Trademarked.

Remarks on CD4 counts

From this report we can clinically conclude that overall people that have participated in the long-term programme have been able to maintain or improve their CD4 status, which is a direct indication of a sustained immune system and supports an intervention programme being implemented. Even though we have included individuals that have not adhered to treatment protocol. The individuals who are not adhering to the programme do not show the same pattern as the individuals who are adhering to the programme.

SIDE EFFECTS AND SPECIAL PRECAUTIONS

People suffering from high Histamine levels may experience some allergic discomforts. Discontinue use of the product. Initial detoxification discomforts may also be experienced. Refer to the heading Contra-indications

KNOWN SYMPTOMS OF OVER DOSAGE AND PARTICULARS OF ITS TREATMENT

* Sleeplessness may be caused if taken too late in the day. Ingest earlier during the day or cut down on number of capsules/day.

* A runny stomach may be experienced due to detoxification. Stop use of the capsules until stomach has firmed. Re-start by using one capsule per day for a week and build up to prescribed dosage. This will soften the detoxification.

- The amino acid Histidine is a pre-cursor to the production of Histamine and over dosage may cause an allergic reaction. Discontinue use of the product.

TESTIMONIALS:

Extracts of letters received from people using Hypo-Plus, lauding the change that it has made to each of their respective lives. Some of these have been translated into English for our International Market. Originals of these letters are available at the Hypo-Plus offices.

- I am full of energy and do not know what it is to be constantly tired anymore.:- Rita
- "I have personally lost three and a half kilograms! My aunt, who is also using Hypo-Plus, has lost 8kg."- Carol
- "I have been chained to my wheelchair for some years because of severe arthritis. Within a month of starting to use Hypo-Plus I was able to walk by myself. My blood pressure, which was as high as 200/105 is normal within a week of using Hypo-Plus. The bleeding behind my eyes caused by the high blood pressure and the diabetes, which left me seeing only light and dark, subsides and my eyesight has improved dramatically. I have also been able to decrease my daily intake of insulin. My left ankle, which had been crushed, has been in plaster of paris on a monthly basis for 8 months. The doctor was on the verge of having to amputate the ankle when a month after taking Hypo-Plus, it was healed" – Elmie
- "I could feel that something was happening after only 3 weeks and the gout in my hand is gone" - Coen
- "I am from Austria and I suffer from lung emphysema. About three years ago I deteriorated so badly that I was diagnosed as dead on three occasions in the ambulance on the way to hospital. As a very sick man I heard about Hypo-Plus from a friend some 5 months ago. At that stage I only had 13-14% lung function left and I had to spend 19 hours a day on oxygen. 5 Months later my lung function has increased to 19% and I only have to spend a half an hour each day on oxygen." - Peter
- "I have been suffering from constipation for many years and to top it, I also suffer from low blood sugar levels. I am allergic to just about all medicine. As a result I have been unable to cure my Haemorrhoids. Since using Hypo-Plus, I am regular to the point of going 3 times a day. I was so surprised to find that I could use Hypo-Plus without any side effects." - Petro

- "At school it helps me to concentrate and I have a lot of energy"- Adele
 - "..... I am a young man of 43 and I have been married for the past 20 years. Since June 1999 my libido has decreased dramatically, resulting in a very poor to no erection at all. I have been using Hypo-Plus for the past 6 months and my libido problems is something of the past. I used to be scared of the 'dark'. Today I look forward to 'the dark times'." - R
 - "The doctor told me that I would suffer from backache for 6 weeks to 6 months and that the Shingles mark would become as big as an A4 size page. I was supposed to be married within a week. My dad gave me some Hypo-Plus and the incredible backache disappeared within two days and the Shingles mark on my back within 3 days. I was able to get married in my dream dress 7 days later" –Melanie
 - " I am HIV positive and was infected by my boyfriend. We were together for two years before we had sexual relations. He never told me that he was HIV positive. (We are not together anymore) I was scared to take anti-retroviral drugs because of all the bad side effects and I can't afford them. I heard about Hypo-plus from a friend of mine who uses it for his Diabetes. I started using it mainly for my candida; it's a terrible type of rash/sores that I get at the back of my throat. I was impressed, it's been about a month now, my rash/sores are clearing up and I really feel great. I have more energy, both physically and mentally, and your product has given me hope." - Once bitten twice shy
 - *" I have had a triple-heart-by pass, they have also inserted "balloons" in my arteries to keep them open. I have to take a big hand full of tablets everyday. I also have high blood pressure and cholesterol problems. I had complications while in surgery, my lungs collapsed and I nearly never made it. As a result of my bad lungs, I always get Pneumonia every winter and have been bordered by my work for obvious medical reasons. My lungs could not stand the cold morning or early evening air. My son bought me a bottle of Hypo-plus. I started using it and experienced good and wired results. It has helped me for my lungs, I don't get sick in the wintertime anymore. The weirdest thing happened to me, I started feeling dizzy after taking my blood pressure tablets. I naturally went to see my doctor. He was even more surprised than I was. Somehow Hypo-plus was the direct result of my high blood pressure dropping? I would feel dizzy due to still taking a full dose of my blood pressure tablets, my doctor immediately halved my dosage and I don't feel dizzy anymore. My doctor told me if this keeps up, that I won't need to take high blood pressure tablets anymore." - Gloria*
 - "I can honestly testify to the following reactions and relief experienced by myself while taking Hypo-Plus naturals:
 - The swelling and stiffness experienced in my knees gradually disappeared and I was able to move around freely and unaided.
 - I experienced considerable relief from severe menstrual pain that I always experienced from early puberty. It restored my energy levels, gone was my constant fatigue and I experienced newly found vigour allowing me to lead a more active lifestyle." MS Papoe".... At night I had to sleep with a glove on my hand because of the extreme pain after just a few weeks on Hypo-Plus, I do not even know of the pain any more. The pain in my shoulder has also disappeared." J de Swardt
 - **West Africa Aids Foundation**
Observational studies on the use of Hypo-Plus Naturals at the West Africa Aids Foundation – Ghana
Hypo-plus Naturals, from the observations that I have been able to make, seems to be a very potent drug. Especially on the overall well-being of the patients, it seems to be working very well. Boosting up their appetite and as a result of this there is weight gain. Also other symptoms such as diarrhoea, bodily pains, joint pains and skin rashes also reduce after initiation of Hypo-plus Naturals. I will be using it on several other patients and will also observe other factors as haematology lab results, chemistry etc. and since we are dealing with HIV/AIDS patients, observation of viral loads and CD4 counts will also be very interesting. Dr. N. Vanderpuy
 - I did a CD4 count on one of the employees on the day he started using the product and again after one month later. His CD4 count almost doubled and that serves as proof to me. Sister A de Beer Occupational Health Nursing Sister.

HUMANITARIAN INVOLVEMENT:

Hypo Plus Naturals™ took hands with an organization called Kids Victory, which is based in Shosanguve, Pretoria, South Africa.

The main focus of Kids Victory:

1. House for Disabled Children in Madidi, 90% of the children's family cannot provide any financial contributions.
2. Home for Elderly people without any means to look after themselves, 100% cannot contribute towards their care.

All staff are volunteers at these facilities and Hypo Plus Naturals™ provide nutrition in the form of Power Foods™ Porridge and Hypo Plus Naturals™ Capsules. These facilities totally depend on the generosity of the community and outside companies to provide food and clothing for its inhabitants.
